

PD2SYS-96 SERIES

HEATED DISPLAY SYSTEMS

PD2SYS-96

- HALO HEAT ... a controlled, uniform heat source that gently holds and surrounds food for better appearance, taste, and longer holding life.

- Holds and displays hot food fresh and moist for hours — without adding water.

- Expandable system to meet your specific requirements.

- Matches profile of leading refrigerated display case.

- **HOT DISPLAY CASE**

- Curved glass styling.
- Displays hot food without condensation on glass.
- Thermostatically controlled heat source radiates from the base of the display case in multiple heat zones.
- Overhead light zones with shatterproof coated bulbs.
- Holds a full range of standard (gastronorm) pan sizes, full-size or half-size sheet pans.
- Tempered sliding glass doors reflect heat back into the products and mirror the display to enhance merchandising effect.

- **DECORATOR BASE**

- Standard black painted front and end panels.

The display case is constructed of 18 gauge, non-magnetic stainless steel and is mounted directly on top of two pedestal risers. A curved, tempered glass front encloses the display case and can be lifted to a 90 degree angle for easy cleaning. Removable, sliding glass doors on the operator side are included. Sliding door tracks have a "clean sweep" cutout allowing for easy cleaning and crumb removal. Framed end glass with rubber gasket material protects glass edges from chipping and breakage. The base is divided into three (3) individually managed heat zones with each zone controlled by a separate thermostat with a range of 1 through 10 and heat-on indicator light. Overhead lights are controlled by ON/OFF switches in three (3) light zones. Two (2) 125V plug outlets are available as an option on 120/208-240V units only.
